VOUS ÊTES À LA RECHERCHE D'UNE SURFACE BELLE ET PERFORMANTE POUR VOTRE PROCHAIN PROJET ?

LE MASTER OAK EST LA SOLUTION.

Sur certains aspects le Master Oak est plus performant que le chêne véritable. Pourquoi ? Son aspect et le toucher sont indissociables du chêne véritable et il est fabriqué à partir de plus de 90 % de bois recyclé. C'est une alternative abordable au chêne et au placage chêne. Et la cerise sur le gâteau ? Votre surface ne se décolore pas, elle est 3 fois plus résistante aux rayures que le chêne véritable et est facile à nettoyer.
